MOLE WEBMAKER®

FEATURES

When your scene calls for cobweb effects, we have a new safe and clean way to create them with the Webmaker®. To make the job simple and effective, our durable, lightweight, Webmaker® features an easy loading glue stick chamber and a palm trigger for fatigue-free operation. Powered with a compressor, which features auto shut-off at a set pressure and a regulator for controlling the airflow. A 25 ft. air hose is also available. All items can be purchased as a kit.

9213	Air Hose—25 ft.
9214	WebMaker® Case
9215	Compressor Case
9216	Container of Glue (24 sticks)

Each item can be purchased seperately

COBWEB GUN OPERATION

Simplicity of operation is the feature of this WebMaker®. To operate, insert a glue stick into the back of the unit. Open the air valve on hose and depress the gun handle. The result is a thin filament blown out five to ten feet to build up a cobweb where desired. Cobweb variety is dependent upon the amount of air flowing through the nozzle.
